ESW is a community of artistic practice, alive with activity within our 26 artist studios, specialist workshops and learning spaces in the north of Edinburgh.

#### Our group workshops:

- Inspiring and collaborative.
- Led by excellent artists and technicians.
- Skilled in working with groups.
- Immersive art experiences.
- Bespoke making facilities.
- Hands on instruction.
- Chance to experiment.
- Stimulate creative thought processes.

“We had a great away day at ESW – very smooth and easy process. We did a workshop which allowed everyone to think outside the box and work as a team to build their sculpture. Many said it was the best away day that had ever been a part of.”

We design the workshop to fit your group, bringing together creative exercises and exploration, tours of the facilities, visits to artists' studios and intros to specialist facilities.

Each will focus on imagination, problem solving, experimentation and collaboration.

Example workshops:

- **Mud Club**

Work with a mound of clay to transform it into an ephemeral table top landscape. An excellent team-building session, very hands-on and messy.

- **Public Sculpture**

Work together to design and build a sculpture based on off-cuts of wood and other materials; then site it within the Courtyard or Terrace at ESW.
